# Why MTI?

## The MTI Difference

For over 40 years, MTI has been developing security and merchandising solutions to meet our customers' needs. Our in-house engineering teams are renown for designing industry-leading solutions and have been rewarded with dozens of patents. By rigorously testing and refining our products, you can rest assured your products are well protected.

- Built tough to support you for years to come.
- IoT technology in place.
- Global field services for installation and servicing needs.
- Field replaceable parts for quicker and easier servicing.
- Customer multi-lingual contact center for support.

## Customer friendly showroom solutions to combat theft

### On-brand Design

Sleek aesthetics consistent with all major brands.

### Purpose-built Solutions

Tested solutions designed to fit and protect.

### Tier Security Options

Choice of options to match security needs and customer experience.

# Freedom Micro® II

## Elegant, effective security to showcase phones and tablets

The Freedom Micro® II family delivers value beyond product security. The modular design makes merchandising quick and easy, allowing sales staff to focus on serving customers.

## Display, high customer experience and high security

**Display**

Protection for dummy/mock displays

**PowerPro**

Effective security, any environment.

**High Security Mechanical**

High security, value priced.

**High Security Power**

High security, no compromises.

**High Security PowerPro**

Ultimate protection and flexibility.

### SpeedBracket™ High Security

An adjustable high security bracket that fits most phones or tablets. Lower your cost of ownership as new models are introduced. Interdependent arms adjust, align and center to secure nearly any phone or tablet for a quick and easy installation.

### SpeedPlate™

Quick and easy device mounting without having to remove VHB from the puck

# Freedom Watch™

## Advanced protection for smart watches

The Freedom Watch™ supports full product interactions, while keeping the product secure.

### Heavy duty

The Freedom Watch™ with a mechanical all-metal display, deters even aggressive theft attempts.

### Rugged fixture integration

The Freedom Watch™ with a dual threaded stud attachment works with all slot fixtures, or through-hole mount.

### OEM power

The Freedom Watch™ integrates the OEM inductive charger for excellent cord management.

# Freedom Focus™

## Secure merchandising for digital imaging devices

The Freedom Focus™ was designed to address common issues associated with digital imaging security. Its future-proof design ensures new products can be introduced immediately, allowing shoppers to experience the latest technology as soon as it's available.

### Versatility

Quickly merchandise nearly any camera size or style, including those with off-center mounts or large lenses.

### Powerful protection

Our strong tether protects against smash and grab attempts with audible alarms to alert personnel when threats are observed in store.

### Quick arm and disarm

Our Versa Key™ RFID card simplifies key management and creates a better experience for shoppers and employees.

### Excellent experience

Extra long tether allows for full demos while the puck placement gives shoppers the freedom to demo accessories like lenses, assistants, remotes, and flashes.

### Cost effective design

The modular design reduces maintenance and upgrade costs while it's durable design protects against grab and run theft attempts, keeping your valuable products intact

# CX Flex™

## Universal security for electronics and accessories

Multiple low profile alarming sensors to secure all accessories.

### Simple and secure

One cable for power and alarm with multiple alarm points.

### Locking cables

Cable sensors lock into place reducing theft and false alarms.

### Quick arm and disarm

Low cost Versa Key RFID card arms and disarms with a tap.

# CX Flex™

## Sleek, low-profile sensor

### CX Flex™ 1A
One port, with alarm.

### CX Flex™ 1P+
One port, alarm
with high power.

### CX Flex™ 4A
Four ports with alarm.

### CX Flex™ 4P
Four ports with alarm
and standard power.

## CX Flex™ Power Pass-through Cable™
Plugs into the CX Flex™ for power and security plus the ability to add accessories.

### Reduce cord clutter
Power and secure your device
through a single USB-C port.

### Secure more
Charge and secure additional
accessories with the secondary
sensor.

# Sensor Cable

## Connect to the CX Flex™ to secure pencils

®

### Sleek and low-profile

Pairs with the CX Flex™ models to provide alarming security to the pencil.

### Battery management

Provides appropriate charging to Apple Pencil Gen 1 and stops charging when the Apple Pencil is in motion.

### Inductive charging

Supports the inductive charging capabilities of the Apple Pencil Gen 2.

# High Security Tablet Solutions

## Secures iPad Pro, iPad Air or iPad

The Table Top Security, available in one size to fit iPad Pro, iPad Air and iPad, is a durable and secure merchandising solution eliminating theft while supporting full device interaction.

## Universal design

Fits most combinations of Apple iPad with Apple Keyboards.

Allows for the use of Apple power supply and charging capabilities.

## Keyboard protection

Security bracket adds protection to Apple Magic Keyboard, Smart Keyboard Folio and Smart Keyboard.

## Pencil protection

Add security to the Apple Pencil Gen 1 or Gen 2 with the mid or end-pencil clasp.

# High Security Laptop Solutions

## Secure any laptop in seconds

The Universal Laptop Security protects any sized laptop while allowing customers to interact with the laptop.

## Adjustable design

Brackets and adjustable legs fit and secure a wide range of laptop sizes.

## Exceptional merchandising

Supports customer demo, with low profile design. Customer can pick up and test the laptop.

## Durable

Built to last, preserving initial investment.

## Easy Mounting Options

Fits into any type of fixture with minimal time and effort required.

# HomePod Mini Secure Bracket

## Secure and sound

The sleek Apple HomePod mini Bracket offers customers the opportunity to use controls and experience the sound of the Apple HomePod mini without disruption, while keeping the HomePod mini secure.

## Universal design

Shoppers experience the full functionality of the device with easy access to top controls.

## Maximum shopability

Made of sleek folded sheet metal, the top bracket is secured to the bottom bracket plate with four horizontal posts.

## Versatile mounting options

Secure with VHB, or mount securely with a single or double stud.

# Electronic Smart Locks

## Access when it counts

Strike the perfect balance between empowering your staff and maintaining managerial control. MTI smart locks allow your employees to provide outstanding customer experiences while ensuring accountability.

Manage access permissions with MTI Versa Key, effectively reducing expenses associated with key replacements and fortifying your security measures during employee turnover.

**Click Padlock**
